

HAND TO HARVEST

Advance Guard Arrived in
Wichita Sunday

HARVEST HAS COMMENCED

Eastern Young Men Will Help
Take Care of Wheat

Harvest is on in Sedgewick county and within a week it will be going in full swing. Yesterday traveling men coming in from the south reported many harvesters at work in the fields of soft wheat in this and all counties south of Sedgewick.

Sunday and yesterday the advance guard of harvest hands began coming in from the eastern states. All of the railroads reported a big business from points within three and four hundred miles of Wichita and toward the latter part of the week the young men from points east of the Missouri river will begin to arrive. Yesterday it was estimated that 200 men arrived in Wichita for harvest. Most of them were in this city two or three hours, and every one could be pointed out from their baggage.

A harvest hand can be located as far as he can be seen. He always wears a broad-brimmed straw hat, and at this stage of the season that straw hat is now and then a sign of a harvest hand. A good harvest hand never fails to wear a colored shirt.

The crowd that came into Wichita yesterday was a pretty good looking bunch of young men. They were bright, clean and with plenty of spring in their heels. They looked like workers, and all were having a job. They had a little bundle under each arm, some carried grips or toolboxes, they would not be harvest hands if they did.

Immediately after alighting from a train the fellows rushed to a restaurant for something to eat and then back to the depots where they procured folders, and two or three turned the study side of the depot and began discussing where they would get work in the shortest time and the work would continue the longest. Some had already secured the amount of wheat raised in each county last year and the number of acres this year. A good many did not stop in Wichita at all but went on into Oklahoma where the hard wheat harvest is on in full blast.

The Missouri Pacific and Frisco each brought 50 men direct to this city from points in Missouri and eastern Kansas. The Santa Fe and Rock Island's crowd came from Northern Missouri and Iowa, and the greater number stopped only a few moments in Wichita or at most between trains and then went south.

The men are all sons of farmers in sections where the wheat crop is not so important. All are young men, many not past their majority and this is their first trip to the great wheat fields. They came here to see the country. They are enabled to travel over a considerable portion of Kansas and in the fall return home with considerable money in their pockets, having had a very pleasant summer and visited the famous wheat fields of a famous state.

The boys travel in groups of two, three and four, and hardly ever five from one locality. They started well determined to keep together throughout the summer and return together in the fall. All will get jobs within a mile of each other before this week is ended. Perhaps all will be employed by the same man. Within two weeks all will be separated and may not see each other again until they all reach their eastern homes.

Extraordinary will put in many hard days work in the fields putting the grain in shock or stack, then will come the threshing season. Everyone will have at least 100 days work before they can return home and know that the Kansas wheat crop is in the bins.

Today the number of men will increase; possibly the number will be doubled. By the end of the week there will be harvest hands on the street by the hundreds, and the people of this city will no longer stare at the jumpers and straw hats. Wichita is the scene of most of the harvest hands. They come here and get their bearings. The railroads are very willing to furnish them any information they may wish.

Young women may avoid much sickness and pain, says Miss Alma Pratt, if they will only have faith in Lydia E. Pinkham's Vegetable Compound.

"I feel it my duty to tell all young women how much Lydia E. Pinkham's wonderful Vegetable Compound has done for me. I was completely run down, unable to attend school, and did not care for any kind of society, but now I feel like a new person, and have gained seven pounds of flesh in three months."

"I recommend it to all young women who suffer from female weakness."—Miss Alma Pratt, Holly, Mich.—\$5.00 per bottle. Perfect relief of all other ailments guaranteed.

FREE MEDICAL ADVICE TO YOUNG WOMEN.

All young girls at this period of life are earnestly invited to write to Mrs. Pinkham for advice; she has guided in a motherly way hundreds of young women; her advice is freely and cheerfully given; her address is Lynn, Mass.

Judging from the letters she is receiving from so many young girls Mrs. Pinkham is inclined to the belief that our girls are pushed altogether too near the limit of their endurance now, days in our public schools and seminaries; less learning and more health needed.

WALKE'S RIG RECOVERED.
Four Negroes Were Out Driving in His Buggy.

W. H. Walke recovered the horse and buggy which was stolen from North Main street as reported in Sunday's Eagle. When Mrs. Walke saw the two persons drive away with the horse and buggy she told her son, Fred, who, with Chuck Sherrod, secured a lively rig and went in pursuit. About 1 o'clock they recognized their horse coming from the north part of town. In the buggy were four negroes, two men and two girls. When commanded to stop they struck the horse with the whip and drove rapidly south to Central where they turned east. Young Walke and Sherrod pursued them catching up with them at this point. There is an arc light on this corner and Walke drew a revolver and threatened to shoot if the colored men did not halt. Seeing the revolver the men jumped from the buggy and ran leaving the girls. They kept in the shade of the trees and made their escape. The girls say the men came to their house and told them they had secured the rig at a livery barn, spending all their money for it. They proposed that the girls buy the beer and they go out for a time. It is not known whether the colored men intended to steal the rig or just use it for the evening.

Walke and Sherrod are just boys and deserve much praise for the nerve they displayed. They did not know but what the negroes were armed and to follow them was a pretty piece of work.

ANOTHER WONDER OF SCIENCE.
Biology Has Proved That Canker is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam delved, the human race has been troubled with canker, for which no cure was known until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes canker or scurf by digging into the scalp to get at the root of the hair, where it gets its vitality; causing itching, scaling, falling hair and finally baldness. Without dandruff hair must grow luxuriantly. Herpicide at all druggists. It is the only destroyer of dandruff. Sold by leading druggists. Send for stamps for sample to The Herpicide Co., Detroit, Mich. Moore Drug Company, special agents.

YESTERDAY WAS FLAG DAY.

Many Banners Were Displayed by Citizens and on Business Houses.

One hundred and twenty-five years ago Sunday, June 14, in a little room at 230 Arch street, Philadelphia, stood three men and a bright little woman. One was George Washington, one was Samuel Morris and the other's name was Ross. On this memorable morning the first American flag, the "Stars and Stripes," was floated to the breeze and flung into the air by the thirteen original colonies. There were thirteen stars, alternating red and white, and in a blue field in the upper left corner were thirteen bright stars.

This was the flag of the federated colonies and the day that it was first displayed has lived through a century and a quarter as flag day. This year the 14th came on Sunday and the observance of the day was postponed until the 15th.

Yesterday flags of all sizes were displayed in Wichita. There were big flags floating from the tops of buildings, little flags on the fronts and in windows and hunting was to be seen in almost every nook and corner. Flag day was more generally observed in Wichita than ever before.

The daughters of the American Revolution held a patriotic meeting with Mrs. Burdette on College Hill and the Woman's Relief Corps turned it into a memorial day for deceased members and the graves were decorated with flowers and flags. Many persons wore tiny flags yesterday.

INTERURBAN CAUSES JOY.
Genda Springs Delighted Over New Organization.

Wichita parties returning from Genda Springs report that the organization of an interurban company in this city to a great stir there. Everybody was joyful to build an electric road to that place caused by the new and all took heart to go in stronger for the upbuilding of the city and the increase of its fame as a health resort.

Captain James Hill, one of the most enterprising men in the Southwest for many years, and the owner of the Loomis house, the history that reflects credit on its original builder, Colonel Sam Gilbert of this city, said it was the greatest day in the history of Genda Springs when the interurban company was organized in Wichita.

William Crimble, one of the oldest citizens of Genda, said: "This is the day that I have long waited for."

There are but simple expressions of Genda Springs citizens, all of whom have the idea strongly developed in them that the destiny of the "Springs" and Wichita are closely interwoven.

Judge Dale, who was at "the Springs," came home too early to witness the good feeling of Genda Springs. He is one of the best friends the "healing waters" ever had. He goes there every year and he comes home recuperated. The

water will recuperate anybody. Some marvelous cures have been accomplished so far this season. William Robinson, an old citizen of Caldwell, and known to many in this city, came there three weeks ago crippled into a knot with rheumatism. He was unable to wear shoes or to raise his hands even with his shoulders. Within two weeks he was as strong and stout and active as he had ever been in his life, and he left there yesterday a "graduate"—completely restored to health.

Judge Stoddard came from Trinidad, Colo., with Mr. Robinson with stomach trouble seemingly incurable and he, too, has graduated cured and with sixteen pounds more flesh than he has carried for nearly twenty years. This miraculous change was wrought in him in less than twenty-one days.

Dozens of such people are about the Loomis every day and the baggage room of the hotel looks like a bankrupt crutch factory. Jake Sherman of this city, the well-known Carey hotel barber, is there completely restored to health in three weeks. Dr. Schultz has just returned after a week completely recuperated. He was unable to eat and now he thinks he could eat a dish of driseped temporary nails.

The greatest cure of all was that of John Blair of Oklahoma City, who used to be of the firm of Bracken and Blair of this city years ago. He spent over \$1,000 since February trying to get relief from his rheumatism at Hot Springs. In despair he came to Genda three weeks ago and left yesterday in better health, carrying more flesh and enjoying more vitality than at any time in eighteen years. His stay in Genda cost him less than 50¢.

The season at "the Springs" is just now opening right. Heretofore it has been cold and few came there. When Colonel Sam Gilbert built the Loomis he did a great deal for Genda. In planting fine maple trees all around it. He was told that on account of the influence of the salt water trees would not grow there, but he did not heed this talk and today those trees make the finest shade anywhere in Southern Kansas. They are practically all the shade trees—that is in a convenient place—and that is why Mr. Gilbert gets so many blessings from the visitors to the Loomis.

The first sail boat of the season was launched Sunday and visitors had a day time. The electric launch will be ready to take to the waters of the lake by next Sunday. Smaller boats representing every state in the union, and named after them, are always on hand and this is a feature that is very attractive.

Fishing has not been good up to a few days ago on account of the floods of a few weeks ago, which washed a great deal of food into the lake, but now the bass and crappie are having a little better appetite and are taking hold of bait more eagerly. Something like 20,000 fish, carp, crappie, bass and cat were put into the lake last year and they have done well. Fish weighing as high as sixteen pounds are caught there, but Dr. Schultz got none of them according to the reports of various rival anglers down there. When he reached there he opened up his grip in the Loomis, took out his expensive fishing tackle, exposed a formidable garf to the astonished gaze of all and by his actions indicated to the common fisherman that he would show them how to catch fish. He told Landford "Jim" Hill that he would supply his house with bass while he was there, but "Com" said "Hill got none of them according to the reports of various rival anglers down there."

In the evenings the piano at the Loomis proclaims that merry making is on and the fellows who came on stretchers two weeks before enjoy the new life that the magic waters put into their heels and ankles and they trip the light fantastic to their hearts content, if they do not belong to the church.

The means of getting to Genda from Wichita are better than they were last year. One can leave here now at 8:30 in the morning and reach the Springs about 1:30 getting an hour in Arkansas City for dinner and eight miles. This is about two hours or more better than it was last year. Returning to connections are still closer on account of the 1 o'clock Santa Fe at Arkansas City.

But Genda is not satisfied yet and will not be satisfied until a direct road from Wichita is built by the new interurban company.

CLUB HOUSE BEGUN.

Workmen Began Laying Foundation Yesterday Morning.

Operations commenced yesterday morning on the foundation for the new Country club house on College hill. The contract for the construction of the building was let to J. Florence Friday, and in order to complete it within the contract time, sixty days, it was necessary to begin work at once. The location chosen for the structure is all that could be wished. It commands a view of the city, is near the street car line and is high and cool. In drawing the plans for the building the club devoted more attention to convenience and comfort than to the cost and as a result will have the finest club house in the West when it is completed.

THREE ARE ELECTED

I. O. O. F. Grand Lodge Officers
Not All Filled

IN RECENT ELECTION

Other Officers Will Have to Be
Elected in Grand Lodge

The election held in the Odd Fellows lodges resulted in the election of a grand master, a grand secretary and a deputy grand master. The offices of grand treasurer, grand warden and grand representative to the supreme lodge will have to be filled at the grand lodge meeting which is scheduled for this city beginning October 12.

According to the rules of the Odd Fellows at the last meeting in May of each subordinate lodge the past grand ballot for grand officers. The past grand officers are the men who have passed all of the chairs in each lodge. When the vote is taken it is by a system something like that of the state Australian ballot system. The returns are sent to the grand lodge headquarters at Topeka where the vote is canvassed by a committee appointed for that purpose.

The vote this year resulted in only three candidates receiving a majority of all votes cast and the other officers will have to be elected at the grand lodge meeting. The officers elected were: Grand master—Gomer Davies. Deputy grand master—G. W. Allaman. Grand secretary—W. H. Kemper. The grand lodge meeting in Wichita this year promises to be one of the best meetings of the order ever held in this state. Although four months away the local members have commenced work preparing for an exceedingly large attendance of members and the program which will be presented will be a most interesting one.

ROOFS TO BE PAINTED.
City School Buildings Will Be Touched Up.

Contracts have been let for the painting of the roofs of several city school buildings, and the workmen were busy yesterday putting them in shape. The outside of several of the buildings will also be given a coat or two of paint. This work will be included in the contract for repainting, papering and building the additions authorized by the school board. All bids for this work must be in the hands of the committee appointed by 10 o'clock Thursday forenoon. The board will hold a meeting Thursday afternoon and award the contracts.

KILLS CATARRH MICROBES.
Hymel Destroys Disease Germs and Makes Remarkable Cures.

Breathe Hymel a few minutes four times a day, through the seat pocket inhaler that comes with every outfit, and benefit will be seen at once. Continue this treatment for a short time, and your catarrh will have been cured by Hymel. There is no roundabout way in Hymel's medicinal action; it does not try to cure a disease of the head by putting medicine in the stomach. It fills the air you breathe with balsamic healing, that soothes the irritated and smarting membrane, destroys the microbes of catarrh that are present in the head and throat, and is the only treatment that can be relied upon to cure catarrh.

When using Hymel the air you breathe will be like that on the mountains high above sea level, filled with volatile, antiseptic fragrance that heals and cures the irritated mucous membrane of the air passages.

Since Hymel was introduced in Wichita with every package sold the druggists have given their personal guarantee to refund the money if it did not cure. Although they have sold hundreds of packages, only two have been returned. This offer is still in force, and Hymel will be absolutely free to anyone unless it cures catarrh.

The treatment of deafness, which is often the result of catarrh, Hymel acts almost immediately upon the inflamed membrane, and hearing begins to return at once.

AN EXCELLENT RECITAL.
Ernest Richard Kroeger Received by Large Audience.

Mr. Ernest Richard Kroeger, of St. Louis, rendered a program of selections from the choice music of the best composers on the organ at the Reformed church last evening, that has seldom been equaled in Wichita. From first to last he held enrapt a crowded house on a warm evening, as he covered almost every description of choice musical composition, and at the close of each number the performer received enthusiastic applause. It is not an unusual thing for an audience to show enthusiasm in an organ recital, particularly in a church, but last night proved an exception and not one of the numbers failed to elicit a hearty expression of the appreciation of the hearers. It would be difficult to enumerate the strongest features of the work of the performer, for he certainly seemed to excel in every particular. The organ recital, particularly in a church, but last night proved an exception and not one of the numbers failed to elicit a hearty expression of the appreciation of the hearers.

Mrs. Heller certainly delighted her audience and revealed the fact that she possesses a fine musical temperament, a beautiful voice, a large range, a fine style, and is excellently suited for the concert work. Miss Emily Torrington accompanied Mrs. Heller in her usual excellent manner. The leading musical students of the city expressed their hearty commendation to the Reformed church choir for bringing Mrs. Kroeger to Wichita.

AUDIENCE WAS PLEASED.
With Recital at Plymouth Congregational Church Last Night.

Wichita is justly proud of her great number of talented young musicians and among them all none hold a higher place than those who delighted a large and appreciative audience at Plymouth Congregational church last evening. The friends of Miss Mary Findley were glad of the opportunity to hear her so soon after her return from Chicago, where for six months past she has devoted her entire time to music, under the direction of the eminent teacher, Mr. Emil Liebling. Great as were her attainments before leaving Wichita a marked improvement is noticeable which does not detract in the least from her graceful personality, but the work of past months shows in a broader and more comprehensive interpretation as well as mastery of technical difficulties. Miss Findley is to be congratulated on the choice of a teacher who has understood her capabilities and directed her studies to such good advantage. The program, which was well selected and varied, was opened with the brilliant Allegro from Weber's Sonata, Op. 49. This was finely played, with exquisite shading and phrasing and accounts well marked which characterize Weber's music. The delicate passages were especially beautiful.

In the group of three next played the Romance Dramatique by Liebling was much enjoyed. The melody was beautiful and the rippling accompaniment very effective. The Concert Study by Seis brought out some nice work in thirds and double notes which were clearly played. The last of the group was Walse, Op. 6, by Schubert, in which the grace and gay were blended in a very acceptable manner.

The first number in second part was the well known Ballade, Op. 6, by Chopin, and was rendered in a most acceptable manner. The runs and arpeggio passages were noticeably well played.

The Rhapsodie Hungroise No. 11, Liszt, with which the program closed was the first of which was the most pronounced. The strength and delicacy of touch exhibited by the player in this selection was very marked and called forth a very persistent encore in which Miss Findley played a very pretty little duet by Nesterhout.

Mr. Moss Johnson rendered very able assistance in several vocal selections, the first of which was the duet recitation and aria, "For Behold Darkness Shall Cover the Earth," and "The People That Walked in Darkness Shall See a Great Light," by Handel. Mr. Johnson sang this number with well sustained tones and good phrasing and in every selection showed improvement which followed hard study. In a group of three will contrasted numbers, all of which were well rendered, perhaps the best was "Beloved Columbia," by Franz Ries. In this selection the tones were fine and well brought out. The audience insisted on an encore and "Loch Lomond" was given with good effect.

At the close of the concert many went forward to congratulate the young musician who had so ably entertained them.

"A NEW BABY AT OUR HOUSE."
Increase in Population in the Fourth Ward.

It's this way, as one little girl in Colonel Murdoch's neighborhood expressed it: "They've got a new baby girl over there and she will be six days old at half past five o'clock this afternoon. And it's the best baby. Say, and it has a whole lot of hair on its head. My, but it's cunning. I forgot to tell you what her name is. It's Victoria Eaton."

FOR CRUELTY TO ANIMALS.
George French and Roy Parker Were Arrested Last Night.

George French and Roy Parker were arrested last night on North Emporia avenue and are held on the charge of cruelty to animals. These men had a team of about the most morose looking creatures that ever staggered up the streets of Wichita. They had a team of ponies, so old that they had lost their teeth, so thin that they would have to stand twice in one spot to make a shadow and so weakly on their pins that only the widest streets could accommodate

Uneda Biscuit

To prove the wisdom of heeding the advice of reason, you need only try **Zu Zu GINGER SNAPS**.
NATIONAL BISCUIT COMPANY

them. They were mangy and dirty. The harness was as much wire as leather. The bay pony was hitched to a light spring wagon, and hitched to this was a heavy spring wagon, both loaded with junk. The grey pony was led, one little pony that did not look like it could stand up and eat was compelled to pull those two wagons, enough for a good sized horse to haul.

The police heard of the outfit and immediately started after them. The two men were jailed and the two ponies put in a livery barn and given a good feed.

FIRST ROAD OPEN.
Louisville and Nashville Running Trains Out of St. Louis.

Santa Fe officials received a telegram here last night from J. H. Davenport of St. Louis, an official of the Louisville and Nashville road, stating that that road was open for business to the south and west and was running trains out on schedule time. That road is the first to run trains out of St. Louis since the beginning of the flood, and people who have been waiting here to go east will be glad to learn that the flood is abating and that trains will soon be running on time.

JOHN POSTELTHWAIT DEAD.
Died at the Age of 82, Sunday Afternoon.

John R. Postelthwait died Sunday afternoon, June 14, at the home of his daughter, Mrs. G. F. Phillips, at 1712 N. Minnie avenue. Mr. Postelthwait was 82 years old, was born in Kentucky and has been a resident of Wichita for twenty years. His death was caused by old age. Joseph Postelthwait, a contractor of this city, was his son. The funeral service was held yesterday at 2:30 p. m. from the home of his daughter, Mrs. Mary Thomas, at 1401 North Lawrence. Interment was made in Highland cemetery.

TEAM RAN AWAY.
And Wrecked Buggy on South Main Street Yesterday.

Yesterday afternoon one of the big black teams of the Pratt Lumber company became frightened on South Main street and started north on a wild run. The driver, who was comparatively new, and the vehicle which were in the road made way for the big horses. One buggy, hitched to the curbing, was struck by the swaying wagon and wrecked, but the team was stopped before anyone was injured.

LITTLE CHILD DIES.
Mr. and Mrs. E. C. Frazier's Baby Son Passed Away Sunday.

Mr. and Mrs. E. C. Frazier are mourning the death of their seven-day-old baby boy. The baby died at the home of the parents, 217 Hinton avenue, Sunday evening. The funeral services were held yesterday afternoon. Interment was had in Maple Grove cemetery.

HANSEN MAKES CHARGES.
Claims Jake Hansen Stole His Road Wagon.

A complaint was sworn out in the city court yesterday by John Hansen, in which he charges Jake Hansen with stealing a road wagon belonging to him. The plaintiff states that he values the wagon at \$12 in good United States coin. The defendant will be given a preliminary hearing before Judge Alexander this morning.

GIVEN A FINE COUGH.
Father Rice Remembered by C. Y. M. C. Boys.

Last night the C. Y. M. C. boys presented their president, Father Rice with a beautiful cough. Yesterday was the anniversary of Father Rice's ordination.

CONCERT ON COLLEGE HILL.
Sanford's Band Will Play Wednesday Evening.

Wednesday evening the first concert of the season will be given on College Hill. The band stand has been repaired and everything is being put in good condition to accommodate a large crowd. The ground is high and dry, entirely away from the business district and the grass is thick and long. The chiggers have not commenced business this season. It is a very pleasant drive out to College Hill and back, with two hours' good listening to band music. The street car company will make provision for hauling all who wish to attend the concert.

CONSULT
DRS. JOHNSTON & WALSH.
America's Greatest Specialists in all CHRONIC, NERVOUS, BLOOD and SPECIAL DISEASES.

Permanently Located in Wichita, Kansas
NERVOUS DEBILITY—Impotency, St. Vitus' Dance, Spasms, Flushing Spots before the Eyes, Pains in Head and Back, Throat and Lungs, Trembling, Nervousness, Loss of Endurance, Early Fatigue, Trembling, Stomach, Painful Urine Around the Heart—these symptoms are often the signs of approaching nervous diseases—delay is fatal.

LADIES: There are hundreds of you suffering from nervousness, pains and disease peculiar to your sex, who are waiting this time and waiting trying to get well by old-fashioned methods. Drs. Johnston & Walsh have cured hundreds in a short time by their new methods, who were given up as hopeless by others.

Perfect cures guaranteed in all weaknesses and physical decay of men cured in a short time. No suffering from business or responsibility in any way. Highest prices paid for all cases. CHICAGO MEDICAL INSTITUTE,
121 East Douglas Ave., corner of Market Street, Third Floor.
Rooms 21 and 22
This elevator of Market street entrance.

and as he was the founder of the order of young men they thought it would be a fitting manner of observing the anniversary and also show their esteem by supporting him and presenting him with a couch.

OF INTEREST TO SOCIETY FOLK.
Society Events for Sunday's Eagle Must Be in Thursday.

Owing to a different arrangement in making up Sunday's Eagle all society events that are meant for the succeeding Sunday's Eagle will have to be in by Thursday noon.
